Sustainability

We promote environmental friendly products. Therefore we use chromeVI free zinc plating. For our packaging we use recycled cardboard.

Ook bij pgb-Europe dragen we ons groene steentje bij voor verantwoord ondernemen. Zo worden onze schroeven chromeVI-vrij verzinkt en gebruiken we gerecycleerd karton voor onze verpakking.

Chez pgb-Europe, nous nous responsabilisons également en respectant l'environnement: en effet, notre visserie en zingué ne contient pas de chromeVI et nos produits sont emballés dans des cartons entièrement recyclables.

Auch die pgb Gruppe unterstützt und fördert Umweltbewusstes Handeln. Deshalb legt pgb-Europe ein lagerhaltiges Programm mit Chrom VI-freier Dickschichtpassivierung auf und verwendet Verpackungen aus rezykliertem Karton.

Important notice

Despite the fact that most of the products we supply do not fall under the scope of the RoHS regulations pgb-Europe wants to be active and supportive when dealing with all environmental issues and requirements in general. Therefore Cr6+ yellow zinc plated article items (items with 'GZ' symbol) will be replaced, as much as possible, by white zinc plated article items (Cr3+).
